INDEX TO VOLUME 22
SUBJECT INDEX

Academic nursing centers
  nurse-managed, clients served and service data by, 331–338
Academic status
  of nursing education across Western Europe, 162–171
Academic success
  teamwork in, 143–144 *(Editorial)*
Adolescent
  national health needs assessment of nurses to, 304–313
Advanced nursing practice
  outcomes of Master's of Nursing students' scholarly projects/theses, 296–303
Advanced practice nurses (APNs)
  assessment of, on geriatric knowledge, 112–115
  common identity adoption of, 172–179
  competency development in caring for older adults, 116–122
  graduate programs of, geropsychiatric nursing in, 129–136
  mentored graduate program of, in gerontological nursing, 137–141
  in nurse-managed centers, clients served and services provided by, 331–338
  practice doctorate, national agenda for, 7–14
American Association of Colleges of Nursing (AACN)
  and John A. Hartford foundation partnership, grant for geriatric nursing education, 69–70
Attitudes
  of nursing students about breast-feeding, 314–321
Australia
  relationships between workplace stressors, coping methods, demographic characteristics and health among nurses in, 30–38

Baccalaureate degree programs
  ensuring NCLEX-RN success for first-time test-takers, 322–326
  gerontological nursing, 73–78
    clinical experiences, education/community collaborations, 107–111
    and educational framework support, 103–106
    and faculty development, 79–83
  hallmarks of quality and patient safety in, 329–330 *(Editorial)*
  learning with concept mapping of care plans in community-based education, 23–29
  qualitative findings on computer literacy among students, 52–59
  strategies for gerontology incorporation to, 98–102
Beliefs
  of nursing students about breast-feeding, 314–321
Breast feeding
  nursing students attitudes and beliefs about, 314–321

Cancer
  center for education and research, community partnership model for, 273–279
Certification
  perceived value of, in certified and noncertified and administrative perioperative nurses, 242–247
Chief nursing executive (CNE)
  health system, priorities and challenges of, insights for nursing educators, 213–220
Clinical nurse leaders
  conceptual framework for, 367–372
  implementation of role of, influence of personal characteristics of postbaccalaureate nursing students, 15–22
Clinical practice
  qualitative findings on computer literacy, 52–59
Collaboration
  of education/community, for gerontological clinical experiences, 107–111
  faculty members in gerontological nursing education, 84–90
  nursing communication skills in health care team interactions, 180–189
  professional learning partnership between education and service, 347–354
Communication
  barriers, impact on acute care medical professionals, 355–358
  improvement of intershift report, 197–204
  interpersonal, validation of Interpersonal Communication Assessment Scale, 60–67
  nursing skills, in health care team interactions, 180–189
Community-based education
  community and neighborhood partnerships in, 236–241
  student learning with concept mapping of care plans in, 23–29
Community health care facility
  workplace violence after a training program in, 289–295
Community partnership
  in community-based education, 236–241
  for development of center for cancer nursing and research, 273–279

doi:10.1016/S8755-7223(06)00174-8

Community partnership coordinator (CPC)
managing community and neighborhood partnerships in a nursing curriculum, 236–241
Compassion
nursing communication skills in health care team interactions, 180–189
Competency
development of, advanced practice nurses in caring for older adults, 116–122
gerontology, integration of, to graduate nursing programs, 123–128
of nurses to adolescent health care, 304–313
validation of Interpersonal Communication Assessment Scale, 60–67
Computerized intershift report
improvement on, 197–204
Computerized testing
standardized, preparation for NCLEX-RN, 373–379
Computer literacy
qualitative findings, 52–59
Concept mapping
of care plans in community-based education, student learning with, 23–29
Coping
relation to workplace stressors, demographic characteristics and health in Australian nurses, 30–38
Credibility
nursing communication skills in health care team interactions, 180–189
Curriculum
baccalaureate program, strategies for incorporation of gerontology to, 98–102
community-based, managing community and neighborhood partnerships in, 236–241
enhancement, of gerontological nursing education, 84–90
gerontological nursing
in baccalaureate degree program, 73–78
in baccalaureate degree program, and faculty development, 79–83
mentored model, advanced practice graduate program of, in gerontological nursing, 137–141
in nursing education, reform agenda into practice across Western Europe, 150–161

Depression
in baccalaureate *vs.* postbaccalaureate nursing students, influence on implementation of clinical nurse leader role, 15–22
Disability law
and nursing education update, 190–196
Doctoral degree programs
on interdisciplinary research, 266–269
national agenda for advanced practice nursing, 7–14

Education, nursing
baccalaureate
gerontological nursing, and faculty development, 79–83
gerontology course, 73–78
community-based, learning with concept mapping of care plans, 23–29
community partnership model for cancer center development, 273–279
conceptual framework for clinical nurse leader, 367–372
and disability law update, 190–196
educational framework to support gerontology at the baccalaureate level, 103–106
ensuring NCLEX-RN success for first-time test-takers, 322–326
funding in, 221–225
geriatrics, 71–72 *(Guest editorial)*
and gerontology for, 69–70
gerontological clinical experiences, education/community collaborations, 107–111
gerontology curricular enhancement, 84–90
geropsychiatric, in advanced practice programs, 129–136
importance of promoting peace in, 327–328 *(Editorial)*
improving perceptions of patient care, 280–288
influence of personal characteristics of postbaccalaureate nursing students on implementation of clinical nurse leader role, 15–22
medication errors made by students during administration phase, characteristics of, 39–51
national agenda for advanced practice nursing, 7–14
needs assessment of nurses to adolescent health care, 304–313
outcomes of scholarly Master's of Nursing students' projects/theses, 296–303
professional learning partnerships between education and service, 347–354
qualitative findings on computer literacy among students, 52–59
reform agenda into practice across Western Europe, 150–161
reforms on implementation and current status across Western Europe, 162–171
role on interdisciplinary research, 266–269
significance of graduate admission written goal statements, 205–209
skills in health care team communication interactions, 180–189
strategies
for incorporating of gerontology to baccalaureate curricula, 98–102
for knowledge and attitude improvements toward older adults, 91–97
Educational framework
support to gerontological nursing education, at the baccalaureate level, 103–106

Educational strategies
for knowledge and attitude improvements toward older adults, 91–97
Educator, nurse
change of nursing students' perceived importance of organizational values exposed to, 339–346
insights for, on health system CNE priorities and challenges, 213–220
Epidemiology
needlestick and sharp injuries, among professional Korean nurses, 359–366
Errors
in medication made by students during administration phase, characteristics of, 39–51
Ethics
concerns in nurse migration, 226–235
Europe, western
nursing education reform agenda into practice across, 150–161
nursing education reforms on implementation and current status across, 162–171
Explanatory style
in baccalaureate *vs.* postbaccalaureate nursing students, influence on implementation of clinical nurse leader role, 15–22

Faculty practice
qualitative findings on computer literacy, 52–59
Fatigue
in baccalaureate *vs.* postbaccalaureate nursing students, influence on implementation of clinical nurse leader role, 15–22
Funding
in higher education, 221–225

Geriatric knowledge
assessment of, to advanced practice nurses, 112–115
Geriatric Nursing Education Project, 71–72 *(Guest editorial)*
Geriatrics
baccalaureate nursing curricula, and faculty development, 79–83
educational strategies, for knowledge and attitude improvements of nursing students, 91–97
and gerontology, nursing education for, 69–70
Gerontological nursing
of advanced practice nurses, and competency development, 116–122
on clinical experiences, education/community collaborations for, 107–111
competencies, integration to graduate program, 123–128
course in baccalaureate degree program, 73–78
education
baccalaureate level, educational framework to support, 103–106
and curricular enhancement, 84–90
strategies in, for knowledge and attitude improvements in, 91–97
Gerontological nursing (continued)
mentored advanced practice graduate program in, 137–141
strategies for incorporation of, to baccalaureate curricula, 98–102
Gerontology
and geriatrics, nursing education for, 69–70
Geropsychiatric nursing
in advanced practice programs, 129–136
Global health
nursing perspective on, 263–264 *(Editorial)*
Goal statements
written, graduate admission significance of, 205–209
Graduate degree programs
of advanced practice nurses, geropsychiatric nursing in, 129–136
gerontology competency integration to, 123–128
significance of admission written goal statements, 205–209
validating Interpersonal Communication Assessment Scale, 60–67
Grants
for geriatric nursing, of John A. Hartford foundation, 69–70

Health
relation to workplace stressors, coping methods and demographic characteristics in Australian nurses, 30–38
Health care
and computer literacy, qualitative findings, 52–59
global, nursing perspective on, 263–264 *(Editorial)*
national needs assessment of nurses to adolescents, 304–313
Health care quality, *see* Quality of health care
Health care teams
professional nurse communication interaction skills in, 180–189
Health care workers
training for, in workplace violence in a community care facility, 289–295
Health personnel
acute care, impact of language barrier on, 355–358
Health system
CNE, priorities and challenges in, 213–220
Hurricane Katrina
nursing experiences from, 270–272

Implementation process
of nursing education across Western Europe, 162–171
Individualized Care Scale (ICS)
sensitivity of, 253–261
Information literacy
and computer literacy, qualitative findings, 52–59
Information management
and computer literacy, qualitative findings, 52–59
Interdisciplinary research
role of nursing education on, 266–269

International nursing
epidemiology of needlestick and sharp injuries among Korean professional nurses, 359–366
Interpersonal Communication Assessment Scale
validation, 60–67
Interpersonal communication competency
validation of Interpersonal Communication Assessment Scale, 60–67
Intershift report
computerized, improvement on, 197–204

John A. Hartford foundation
and American Association of Colleges of Nursing partnership, grant for geriatric nursing education, 69–70
Journal of Professional Nursing
Geriatric Nursing Education Project, 71–72 *(Guest editorial)*
hallmarks of quality and patient safety, 329–330 *(Editorial)*
importance of promoting peace in nursing education, 327–328 *(Editorial)*
new year, new look *(Editorial)*, 1–2
